FRESNO ENTREPRENEUR INVITED TO CHINA

Dr. Harry G. Harris, President of **HealthCare California**, a Fresno-based health care company, departs on April 5, 2010 on a two-week visit to China and Hong Kong. He has been invited by Chinese entrepreneurs to visit several Chinese cities and consult on health care delivery systems. This also includes the adaptation of the **HealthCare California** model in providing home health care within specific Chinese market environments.

Interest in the American health care reform legislation, which was recently signed by President Barack Obama, has stimulated major interest by private sector interests in China. **HealthCare California** has established a model of providing outstanding home health services for its patients. This model has received national recognition and praise by Medicare in providing improved patient outcomes and reducing the necessity for extended stays in hospitals and other residential health care facilities.

In his two-week trip to China and Hong Kong, Dr. Harris will visit several cities in three provinces: Xinjiang in the west, Henan in the center and Guangdong in the south. During the last three decades, China has rapidly embraced a growing market-oriented economy. As a developing nation and with a population of 1.3 billion, China has major health care challenges as the United States. Access to adequate health care and cost-containment remain major areas for reform.

With nearly a quarter century of consulting in China, Dr. Harris has extensive knowledge in both private and public sectors. He will be sharing new perspectives on innovative health care management systems and strategies. In addition, Dr. Harris will be exploring investment opportunities and joint ventures in the health care field.

###

HealthCare California is the central valley's largest Medicare certified home health agency, providing skilled nursing, physical/occupational/speech therapy and social services to homebound patients. With offices in Fresno and Visalia, it serves patients from Merced to Porterville. **HealthCare California** has been consistently recognized as a Homecare Elite Top Agency based upon clinical results ranking it in the top 25% of home health agencies nationwide.
